

Any member of the equestrian community may submit a suggestion for change to the FEI Equine Prohibited Substances List (EPSL). In order for suggestions to be considered all fields of this form must be completed and evidence and information supporting your recommendation must be submitted with this form. Supporting evidence and information must be peer-reviewed scientific publications. Opinion pieces, non-peer reviewed conference proceedings and anecdotal reports will not be considered.

In order for your suggestion to be reviewed by the FEI List Group during 2020 for the 2021 edition of the EPSL, please send the form and supporting evidence via email to caterina.termine@fei.org by **15 March 2020**.

Submitter Details

Name:

Email address:

Country/National Federation:

Please indicate your role(s) in the equestrian community (please tick all applicable):

Veterinarian: ☐ Team veterinarian

☐ Clinician

☐ Non-clinician

Non-veterinarian:

Other treating professional:

National Federation Representative:

Product manufacturer ☐

Horse owner ☐

Competitor ☐ National competitions

☐ International Competitions

Discipline (e.g. jumping)

Other (please specify)

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	--------------------------	--------------------------	--------------------------	--------------------------	--------------------------	--------------------------

Please provide your FEI ID number (if you have one):

If you would like to provide any further information about your role in the equestrian community, please describe below:

Please declare any potential or actual conflicts of interest (e.g. financial interests in the outcome, interest in a horse/team that could be impacted by the decision):

Date of submission:

Request for Change

Current classification of the substance:

Banned Substance

Controlled Medication

Specified Substance

Not currently listed on EPSL

Suggested classification of the substance:

Banned Substance

Controlled Medication

Specified Substance

Removed from EPSL

Added to the EPSL

Substance Details

Generic/Chemical name:

Type of drug:
(e.g. analgesic, sedative, etc.)

Trade/Brand names:
(veterinary and human)

Preparation(s):
(e.g. injectable, oral, topical)

Substance Availability

Please tick all of the applicable boxes to indicate how the substance is available to the equestrian community:

☐ Prescription only substance

☐ Prescription not required

☐ Available only via veterinarians

☐ Widely available for purchase e.g. online, over the counter purchases

☐ Available from selected pharmacies

☐ Available from equestrian product suppliers e.g. tack and feed shops

☐ Other (please specify)

Please indicate in which countries the substance is available and if it is approved or compounded in that country:

Country:	<input type="text"/>	Approved	Compounded
Country:	<input type="text"/>	Approved	Compounded
Country:	<input type="text"/>	Approved	Compounded
Country:	<input type="text"/>	Approved	Compounded
Country:	<input type="text"/>	Approved	Compounded
Country:	<input type="text"/>	Approved	Compounded

Technical Information

Please describe how the substance is used in horses and/or other species:

To your knowledge, is the substance used in sports horses? Yes No

Please provide reasons for your suggested change to the EPSL. A specific explanation and scientific rationale including consideration of the available evidence must be included.

Supporting Research

Please list peer-reviewed research papers to support your submission and provide copies of the papers to the FEI. Suggestions may not be reviewed if applicable research papers are not provided.
